

Success Accelerator 3

Implement 150-299 Blue Prism licenses with our expertise, partner network, and Robotic Operating Model (ROM®) for maximum business value.

Whether it's operational efficiencies, improved customer satisfaction, or discovering new ways to grow your business, you have a vision for what a Digital Workforce could do for you.

But how do you get there? How can you be sure your Digital Workforce will deliver transformational value? That's where the Blue Prism Success Accelerator comes in.

A robust and proven operating model and support capabilities that adhere to industry best practices are the keys to successfully executing a scalable, connected-RPA program and realizing maximum business value.

Blue Prism offers a Success Accelerator package to suit any size of connected-RPA implementation that will get you ramped up quickly or step up to the next level intelligent automation maturity by applying our expertise and intimate knowledge of the ROM.

Available direct or through our trusted Partners, Blue Prism's Success Accelerator Packages deliver the experience and technical know-how to help maximize your potential RPA business value.

Four Different Packages to Suit Your Goals

Blue Prism's Success Accelerator packages are based on our Robotic Operating Model (ROM®) approach and are designed to augment the skills and capabilities of our Partner network or be delivered directly to the Customers in the absence of a Partner.

As part of our SA package, our team will offer our perspective on additional Technology Automation Partners (TAP) and Certified Delivery Partners to ensure you have the right skills, knowledge and resources to continue to grow your capability in line with the demands of the business.

The Success Accelerator 3 package is offered to our customers intending to implement between 150 and 299 Blue Prism licenses in the next 12 months.

KEY DELIVERABLES

- Support the creation or realization of the Vision, Strategy and Organization Structure for your Digital Workforce
- Access to the myriad complementary technologies in the RPA ecosystem
- ROM assessment
- Recommended ROM roles mentored by Blue Prism experts
- Advice and guidance identifying and building process automations
